NO 13.

Such Is Man.

The average weight of an adult man is 140 pounds 6 ounces.
The average weight of a skeleton is about 14 pounds.
Number of bones, 240.
The skeleton measures one inch less than the height of the living man.
The average weight of the brain of a man is 3½ pounds; of a woman 2 pounds 11 ounces.
The brain of a man exceeds twice that of any other animal.
The average height of an Englishman is 5 feet 9 inches; of a Frenchman, 5 feet 4 inches; and of a Belgian, 5 feet 6½ inches.
The average weight of an Englishman is 150 pounds; of a Frenchman, 136 pounds; and of a Belgian, 140 pounds.
The average number of teeth is 32.
A man breathes about 20 times in a minute, or 1,200 times in an hour.
A man breathes about 18 pints of air in a minute, or upwards of 7 hog-heads in a day.
A man gives off 4.08 per cent. carbonic gas of the air he respires; in 24 hours, consumes 10.667 cubic feet of oxygen in 25 hours, equal to 180 cubic inches of common air.
A man annually contributes to vegetation 124 pounds of carbon.
The average of the pulse in infancy is 130 per minute; in manhood, 80; at 60 years, 60. The pulse of females is more frequent than that of males.
The weight of the circulating blood is about 28 pounds.
The heart beats 75 times in a minute; sends nearly ten pounds of blood through the veins and arteries each beat; makes four beats while we breathe once.
In one hour 540 pounds, or 1 hog-head 1½ pints of blood pass through the heart.
One thousand ounces of blood pass through the kidneys in one hour.
In the lungs there are 174,000,000 holes or cells, which would cover a surface thirty times greater than the human body.

If they Only Voted.

The Buffalo Express having composed a cabinet of President's sons, the Albany matches it with one of lovely women, as follows:
Secretary of State—Gail Hamilton, of Maine.
Secretary of the Treasury—Anna Dickinson, of Pennsylvania.
Secretary of War—Susan B. Anthony, of New York.
Secretary of the Navy—Mary Walker, of District of Columbia.
Attorney General—Elizabeth Cady Stanton, of New Jersey.
Secretary of the Interior—Helen Hunt Jackson, of Colorado.
Postmaster General—Mary Anderson, of Kentucky.
Gail Hamilton would have damages for that Halifax award in a jiffy. Anna Dickinson might fund the national debt, if need be, out of her own pocket. Susan B. Anthony would strike terror to the hearts of the country's invaders. Mary Walker still further phibetomize the navy; Helen Hunt give each Indian squaw an opera cloak and apron bonnet. Elizabeth Cady Stanton coaxes the Supreme Court into a constitution that would grant women and children the right to vote. But what, Oh what would Mary Anderson do with a whole postoffice at her command and 10,000,000 impassioned correspondents sending her daily letters.

Brother Webster's Proposition.

From the Union News.
There was a large attendance at Friday evening's prayer meeting at the Blue Light Colored Tabernacle. After the gymnastic exercises were over and the benediction had been pronounced, Jim Webster got up and addressed the pulpit as follows:
"Parson, do you know that as I am going to be a caterer, I have given to Houston to spend de Lord's day dar next Sunday?"
"So I have heard, Brudder Webster."
"Well, parson, a two-thirds majority ob de congregation am desirous of desecrating de nex' Lord's day, and as de spokesman I has ter submit a proposition for your consideration."
"What am dat proposition?"
"De proposition am, parson, ef you will skind dis congregation from attending de morning services, dis congregation am willing to let you off from de obseins' services."

INSURANCE! INSURANCE!!

THE ATTENTION OF THE PUBLIC IS called to the following notices from the April number of the "Coast Review," the recognized authority on insurance on this coast. The Insurance Company, represented by the Agency of Jacobs & Keston, and for which W. N. Knox is Agent for Reno:

THE TRADERS' Insurance Company is a conservative, well-managed company. The assets of nearly one million dollars, consist of the very best securities, being principally United States bonds. The original capital of \$500,000, United States bonds, has since been touched since the organization of the company. The loss paid to date aggregate \$1,700,000, and the surplus to policy holders is \$746,000.

THE GLASS FIELDS Insurance Co., better known as the "Old and True," has had a remarkable record of prosperity. Its assets go beyond a million dollars, and the surplus \$129,544.37. This company does business under the Safety Fund law of New York, and shows the largest book value of stock of any fire insurance company of the United States.

THE BULLDOG Insurance Company also does its business under the Safety Fund law of New York, which makes its policies doubly secure. This company has assets amounting to \$201,027.57, and a surplus to policy holders of \$44,071.53. The stock of the company has a book value of \$225.04 for every hundred dollars, which brings the Bull Dog Insurance Company into the list of all American companies.

THE UNION Insurance Company of Philadelphia, was incorporated in 1804, and since then has paid out in losses more than \$10,000,000. The assets of the company are about \$200,000, with a surplus to policy holders of \$200,000. This company has lately moved into their new and elegant building, the present large quarters being necessary for the transaction of a fast increasing business.

THE TRADERS' Insurance Company of New York City, claims to be a conservative and successful record of well-managed company. It has assets of nearly a half million dollars, and a handsome surplus beyond its capital. Since its organization it has made steady progress, adding yearly to its assets, as well as to its surplus.

THE ROCHSTER Insurance Company is a well managed institution, writing small lines and making home divisions. It has assets of nearly a half million dollars, and a handsome surplus beyond its capital. Since its organization it has made steady progress, adding yearly to its assets, as well as to its surplus.

THE SHOE AND LEATHER Insurance Company is one of Boston's best companies. The assets of the company, January 1st, 1881, amounted to \$200,000.76, and the surplus to policy holders, \$207,349.42. Always prompt and honorable in paying off losses, this company has earned an enviable reputation.

THE ORIENT Insurance Co., Hartford, is well known to the insuring public, having done business on this coast some years ago. The company is now here from some reason or other, and has returned now intending to stay. Its assets are \$250,000.00, and the surplus \$211.21.

Address J. F. CUNDON,

As an illustration of the manner in which the legislation of this State is sometimes accomplished, it may be well to give the history of the \$120 exemption act passed by the last Legislature. The bill in original form was brought up in the Senate and the exemption was set at fifty dollars. After some exertion the bill was defeated. A Storey county Senator was assailed by his constituents for the failure. He replied that the bill was improperly managed and could still be passed. The Senator took up the measure amending the exemption to sixty dollars, and called upon the Republican Senate to show that the workmen were its especial care. Under this showing the bill passed the Senate and reached the Democratic Assembly. Here it was taken for a joke, and in order to show that the Democrats were friends of the laborer, the amount was amended to \$120 and passed. Of course it was never dreamed that the Senate would stand the raise, but having originated the measure the Senate concurred promptly and the bill became a law. Following is the text of the amendment:

The Judge or referee may order any property of the judgment debtor, not exempt from execution, in the hands of such debtor, or any other person, or due to the judgment debtor, to be applied towards the satisfaction of the judgment except that the earnings of the debtor not exceeding \$120 for his personal services, at any time within thirty days next preceding the order shall not be so applied when it shall be made to appear by the debtor's affidavit or otherwise, that such earnings are necessary for his use, and in any case where the earnings, wages, salary, or sum due any person for his or her services, at any time within thirty days from the time of the commencement of any legal action against such person, are levied on by virtue of any writ of attachment or execution, or otherwise, the Judge or Justice of the Court in which said action is pending, shall, upon it being made to appear by affidavit or otherwise, that such earnings, wages, salary or sum due are necessary to the support of such person, make an order exempting the sum of \$120 thereof from such levy.

AN IMPORTANT LAND DECISION.

A man named Nickals inclosed 960 acres of land in Eureka county, and claimed it under the United States law. Six men who believed that the land laws did not permit any one person to pre-empt or hold under possessory title more than 160 acres of land, had the ranch surveyed and made homestead entries for the same, in tracts of 160 acres each. Nickals contested their title at the Eureka Land Office, and the Register ruled in his favor. The pre-emptors appealed to the General Land Office at Washington, and the decision of the Commissioner, as reported in the *Sentinel*, says: "It is a matter of general complaint among the poorer class of settlers, that rich ranchmen, or cattle owners, are in the practice of inclosing large tracts of the public domains with fences, to the exclusion of pre-emption and homestead settlement. The case of Nickals seems to be one of this character. He could not appropriate under the laws requiring habitation more than 160 acres at one time, yet he contests homestead entries covering a tract of 960 acres. The contest is dismissed for the reason stated."

This decision, which is based upon that of the Secretary of the Interior, in the case of Powers vs. Forbes, upsets the theory that a possessory title is sufficient to hold public land after it has been surveyed by the Government, or that one person can hold over 160 acres of land against pre-emptors.

An Overland Narrow Gauge Projected.

SALT LAKE, April 14.

Arrangements are now being made in the East with a view to the extension of the Utah Western Narrow Gauge into Nevada and thence to San Francisco. Thirty-six miles of this road are already completed from Salt Lake to Stockton, Utah. This Territory is now in the midst of a lively railroad and mining boom.

EDITORIAL NOTES.

Senator Fair has expressed his ideas on the Chinese question. He thinks the Chinese are in no respect an inferior race, and would never harmonize with the Caucasian race. He repeats the charge of uncleanliness, and adds: "I do not think that this treaty will be of much benefit to the Pacific Coast. I have read it over carefully, and I really do not see anything in it that improves on the present state of affairs. The people of the East do not understand it or they would do more to aid in curtailing the importation of Chinese to the United States. It is not immigration; it is simply importation of cheap labor." It would be in order then for the Senator to make the people understand and take some means to bring about the needed correction by legislation and treaty stipulation.

The game law of this State was amended by the Legislature at the last session. Some special provisions were made for the counties of Lander, Eureka, Humboldt and Elko. For the counties mentioned it is unlawful to kill or destroy any partridge, pheasant, woodcock, quail, wild goose, wild duck, teal, mallard and other ducks, sandhill crane, brant, swan, plover, curlew, snipe, grouse, robin, meadow lark, yellow hammer or bittersn, between the 1st day of April and the 1st day of September in each year. It is also unlawful to kill any sage cock, hen or chicken between the 15th day of March and the 10th day of August of each year. Deer, antelope, mountain sheep and goats are protected by law from the 1st day of December to the 1st day of August in each year.

There will be more revenue than usual coming into the distribution fund of the public school. The interest on land payments has heretofore been turned into the irreducible fund. A change has been determined upon which seems rational. In future the interest will go to the distribution fund and the actual proceeds of sale to the irreducible school fund.

People are very foolish to take papers they do not want. If any one tries to force a paper on a man and he takes it out of the office he is legally liable to pay for it. The way to do in such cases is to return it to the postmaster and notify him that it is refused and he will notify the publisher on blanks provided for the purpose.

The Famous Opera Singers.

Annie Louise Cary and Clara Louise Kellogg are beyond question the most famous opera singers of modern times. In fact they have been universally acknowledged to be the leaders of their profession, as well as ladies of large experience and particularly good taste. They have probably traveled more extensively than any lady on the stage, and, as a consequence, have had excellent opportunities of judging of the merits of different countries and their productions. It is certainly a very great credit to California and the balmey semi-tropical climate of the Pacific, to have had them pronounce Nevada's Yosemite Coliseum by far the best they have ever seen in any country. For sale by Ueborn & Shoemaker.

"La Roche & Co." camera, enameled cabinet and portrait painting are equal to the best work of non-union and Taber.

The above named photographers are now to be found at the Grand gallery, on Virginia Street, where they are prepared to execute all styles and sizes of photos in a strictly first-class manner. Call and examine our specimens, and be convinced of our abilities and prices. La Roche & Co., 100-101.
